EDUCATION

TURING SCHOOL OF SOFTWARE AND DESIGN

Denver, CO
Back End Engineering Certificate
2018

SKILLS & TECHNOLOGIES

Ruby & Ruby on Rails
JavaScript & React
Python
Test Driven Development
SQL
Git & Github
Heroku
Background Workers
Project Management
Algorithms & Data Structures

SUMMARY

I am an experienced software craftsperson with a background in education, seeking a role as a backend or full-stack individual contributor. My technical interests include accessibility, performance optimization, and testing.

WORK EXPERIENCE

BACKEND INSTRUCTOR

Turing School of Software and Design | 2021 - present
- Delivered classroom instruction to over 400 software engineering students
- Wrote original curriculum material and redesigned units/modules
- 'Anchored' program modules by supervising logistics and mentoring Associate Instructors
- Facilitated execution of capstone projects for upper-module students as Project Manager with Agile workflows

SOFTWARE ENGINEER

User Interviews | 2019 - 2021
- Increased user team sizes, and reduced churn by > 5%, with onboarding feature A/B testing
- Spiked, pitched, planned, and implemented greenfield document signing integration with a third-party API

JUNIOR SOFTWARE ENGINEER

Silvernest, Inc | 2018 - 2019
- Built, deployed, and maintained horizontally scalable systems on Heroku
- Executed complex model migrations of production records
- Implemented entirely new user-facing product styles on a team of 3 over the course of 12 weeks

SPEAKING

Turing Top Talks | The Scalable Civic Tech of Estonia

Tech Confluence | Introduction to Common Table Expressions
